GLOBAL TEST-TAKING TIPS

Show What You Know.
Answer the questions you are sure of first and go back to others.

When you finish a test session, you may check your work in that session only.

Place your Answer Booklet inside your Test Booklet.
You may read silently until the next test session.

For constructed-response questions, make sure your work fits in the space provided. NOTE: You may use scratch paper as a draft for your response.

Check to see if you are answering the question in the right place.

Keep working until you reach the “STOP” sign for the session. It is located on the bottom right corner of the page in both the Test Booklet and Answer Booklet. Do NOT go beyond the “Stop” sign.

You may underline or use a highlighter in the Test Booklet but not in the Answer Booklet

Mark the answer to each multiple choice question by filling in the correct bubble in your answer booklet.

Read each question carefully.
